

Freeway Scheduling Training Worksheet

1. Add a Service Type:

Service Types are the service events themselves such as 'Tacho Check', 'Safety Inspection', etc. Any event which occurs on a patterned basis can be entered.

1. While on the Service Types tab, click on the + (bottom left).
2. Enter a unique name.
3. Enter a description of the service type.
4. Do not select a workshop unless there is a special reason that service can only be done at a that workshop: e.g. Service C requires equipment only available at Workshop B.
5. Select a trade: e.g. "Fitter".
6. Enter a Rate and the number of Workers required.
7. Select a Colour for this service type on charts.
8. Enter a criticality (1 is most critical).
